

Cooper County Public Health Center

17040 Klinton Dr. ~ Boonville, MO 65233

Telephone: (660) 882-2626 ~ Fax: (660) 882-2586

Press Release

March 19, 2020

The Cooper County Public Health Center would like to thank the community for hardworking citizens, businesses and service agencies who are being creative and innovative during this unusual and difficult time to protect their employees, students and customers. We continue to encourage social distancing and protective measures by the businesses that are remaining open. The Cooper County Public Health Center is committed to sharing information and has staff on call 24/7. When we receive notification of a positive Covid-19 case we promise to alert the community. Be patient we realize it is scary watching other community numbers climb and thus far no cases have been reported in Cooper County.

Our office remains open to serve WIC program clients and provide core public health services like birth and death certificates, disease surveillance and emergency planning and response. We have reduced the number of routine services we are providing to reduce traffic and exposure between our clients and staff. Please feel free to call the health center for any questions at 660-882-2626. Please follow us on Cooper Co. Public Health Center on Facebook and public notices on our website at

www.coopercountypublichealth.com

Thank you very much,

Melanie Hutton Administrator
